

The Washington Academy of Biomedical Engineering Workshop
--Free and Open to the Public--Reservation Required--

Targeted Hydrogels Induce the Body to Repair Itself

Howard University
Blackburn Center
Auditorium
Washington, DC

February 17, 2004
4:30 – 6:30 PM

Keynote Speaker: Peter Moy, Ph.D.
Biomaterials Director
NIBIB, National Institutes of Health

Speakers

Jennifer H. Elisseeff, Ph.D.
Biomedical Engineering
Johns Hopkins University

Michael B. Lawrence, Ph.D.
Biomedical Engineering
University of Virginia

Directions from the Shaw-Howard University Metro (green line): Go north on Georgia Ave. until you reach Howard Pl. Go 2 blocks east to reach the “Yard”. Go diagonally across the Yard. The Blackburn Center is at the far northeast corner of the Yard, and the Auditorium is on the first floor. A shuttle bus is regularly available at the Shaw-HU Metro that has many stops on the Howard campus.

For further information, visit www.wabme.org or call the workshop organizer, William E. Collins, Ph.D. at (202) 806-4595 or email wcollins@howard.edu. A reception will follow. For a reservation, please call Ms. Dezerine Wallen at (202) 806-6585 or email dwallen@howard.edu.
